How is the program accessed?

Step ONE

GP completes ATSI health check (715)

Step TWO

GP completes GP management plan (721 / 723)

Step THREE

GP assesses the patient's needs for extra services and refers an eligible patient to Marrabinya to arrange / purchase the extra services

Step FOUR

Marrabinya reviews the referral.
If accepted, a Local Chronic Care
Link Worker is assigned to follow-up
with the patient and referring doctor

Please go to

maarima.com.au/indigenous-health-support-service

to access the referral form

GP Revie

During the year patients see their GP to review their GPMP, review medication, review care plan, talk about test results, arrange to see medical specialists.

Follow-up care

Health workers visit or

contact the patient regularly

to arrange follow-up care.

During the 12 month

cycle, patients usually

need to visit specialists

and / or have more

tests done.

START: Cycle of care starts with twelve monthly CTG sign up. This includes an ATSI Health Check and follow-up

by a health worker and access to cheaper medicines.

In the cycle of care Marrabinya fits here

Patients with a chronic disease, access extra care and education to stay well.

Extra care is mapped out in a 12 month care plan known as GPMP.

Medicatio

GPMP includes medication review and management. This includes a Home Medication Review (HMR) and may include a Webster Pack.

Marrabinya is a brokerage service providing support to General Practice to improve access to Specialist services for Aboriginal and Torres Strait Islanders with a diagnosed chronic disease

maarima.com.au

What is Marrabinya?

Marrabinya is funded under the Commonwealth's Integrated Team Care (ITC) program by Western NSW PHN. The ITC prgoram aims to improve outcomes for Aboriginal people through better access to multidisciplinary care and improved access to culturally appropriate services in mainstream primary care services.

Eligibility Criteria:

Indigenous patients who:

- Live in the Western NSW PHN region
- Have a diagnosed chronic disease

Marrabinya focuses on the key lifestyle diseases causing excess mortality and morbidity:

- Cardiovascular disease
- Diabetes
- Chronic respiratory disease
- Chronic kidney disease
- Cancer
- Liver Disease

Out of scope referrals will be considered on a case by case basis.

Patients must be referred by their usual treating doctor and need to have a current GP Management Plan (GPMP).

Brokerage Services include:

- Fees associated with health appointments e.g. diagnostic tests, specialist appointments & Allied Health
- Travel and accommodation to attend health appointments
- Webster packs (does not include OTC medications)
- Assisted breathing equipment
- Medical footwear prescribed and fitted by a podiatrist

Marrabinya will provide these services, if documented as a need in the patient's GPMP and where they are not available under other programs.

Referring doctors need to be aware:

- Marrabinya focuses on organising schedule planned care in advance
- We require a minimum of 48 hours notice to review, assess, respond to your referrals and arrange / purchase agreed services
- Marrabinya is not set up to address crisis / acute issues
- The service is for patients, not carers
- Doctors should utilise EPC items in the first instance to refer patients for allied health services and refer to Marrabinya after exhausting EPC appointments
- Patients referred for assistance with CPAP equipment may be assisted only after prerequisite sleep study and diagnosis are completed
- Patients eligible for assistance under the Enable program will be assisted while on the waiting list
- Marrabinya should be seen as a program of last resort after all alternative programs have been exhausted
